learn through play with each visit

Discovery Gateway Children's Museum is a
501(c)(3) non-profit organization.

Every museum visit is an opportunity to
enjoy access to engaging workshops,
programs, and exhibits while also making a
meaningful investment in our mission to
inspire children of all ages and abilities to
imagine, discover, and connect with their
world to make a difference.

field trips

Discovery Gateway STEAM-Guided Field Trips

encourage students to discover, explore, and create with interactive, hands-on exhibits with the assistance of a Museum Imagination Facilitator. Each exhibit features age-appropriate elements that tie into Utah's core curriculum standards.

Your students will learn about art, science, language, music, healthy lifestyles, careers and more through interactive play in the museum.

COST: \$4 PER STUDENT

Educators and Chaperones: FREE

Plan on at least 1 chaperone for every 5 students.

CAPACITY: 15-150 STUDENTS

LENGTH OF VISIT: 2 HOURS

Includes a 5-10 minute orientation.

DISCOVERY WORKSHOPS:

Select a 15-30 minute workshop from the right to pair with your visit! Pre and post-visit lessons options provided on our website. ▶

Workshop time included in length of visit.

SPONSORED FIELD TRIPS:

Public and Title I schools are eligible for free admission and potential reimbursement for transportation, thanks to Utah State Legislature Informal Science Education Enhancement funding and other generous sponsors. Sponsored field trips include an educational workshop in STEAM or financial literacy.

Funding is limited and available on a first-come, first-served basis.

Discovery Workshops

ARTS

Story Time (Preschool) Children will listen to a short story and perform a hands-on activity designed to get them on their feet!

Rhythms of the World (Grades K-5)

Students exercise creative thinking and movement skills through play:

Ghana (Grades K-2) Learn about the West African Country of Ghana while singing a song in a native language called Akan.

Caribbean (Grades 3-5) Practice teamwork skills by learning a Caribbean work song and writing verses.

FINANCIAL LITERACY

Financial Literacy (Grade K-4) Students will build financial literacy skills by learning the value of coins and understanding the differences between wants vs. needs.

SCIENCE

Kinderforce (Grade K) A great follow up to our Kindergarten outreach program, Potential Energy. Students learn about pushes and pulls from the forces around us.

Plant Cycle Yoga (Grades K-2) Students will root down, sprout up, grow tall, and discover the life cycle of a plant. This wiggle-friendly workshop uses gross-motor movements to mimic the journey from seed to plant.

Beehive Blitz (Grades K-5) Discovery Gateway's Utah Family Farm activity will help your students understand the vital role bees play in the production of hundreds of specialty crops grown on more than 15,000 farms in Utah!

Simple Machines (Grades K-5) Students will explore Discovery Gateway's simple machines, such as planes, pulleys, levers, wedges, and screws, and then apply them to real life use.

Rockin' Roller Coaster (Grades 3-4) What makes roller coasters so much fun? Is it the length, the height, or the speed? Students will investigate by conducting fun roller coaster science experiments while exploring gravity and motion.

Reaction Time (Grade 5) The Reaction Time workshop covers Standard I of the fifth-grade science core-matter, physical changes, and chemical reactions while providing students with an exciting hands-on lab experience. Note: this is a 3 HOUR TRIP with a 45 minute assembly and a 30 minute lab.

Critter Scene Investigation (Grades 5-6) Solve a mystery! Students learn about animal adaptations, discover evidence, and develop hypothesis with hands-on materials.
