Directions:

1. **Cut out the voter registration card**
2. **Fill out the name** - Discuss with your children about how we use our name when we go to the ballot box. This is an important part of ensuring that each person gets one vote!
3. **Fill out the birth date** - Explain that only people age 18 and older can vote. This is because you need to be mature and prepared for voting. It is an exciting thing that happens when we become an adult. Tell your child about the first time you voted.
